# Harpuneet Ghuman

## Full Stack Developer

Scarborough, ON

harpuneetghuman@hotmail.com

[LinkedIn profile](#)

### Summary

- Over five years of significant software development experience in a real-world environment
- Well-versed in numerous programming languages including JavaScript, PHP, and Python
- Able to effectively communicate with clients and coworkers

### EXPERIENCE

#### **Senior Full Stack Developer** - *C2 International, Montreal, QC*

SEP 2021 - PRESENT

- Responsibilities range from development to server infrastructure management
- Following agile development practices, making use of daily scrum meetings, weekly task review meetings, and more
- Managing a team of developers and completing projects on schedule
- Mentoring other developers
- Partnered closely with clients and product owners to define and understand product requirements and success metrics
- Lead effort estimation sessions and use sound judgment to enable the planning of projects
- The Tech stack comprises React, Symfony, GCP, and more
- Engaged with clients to plan and optimize site issues and queries
- Handled the code review process
- Ensuring that applications are secure and that they can interact with multiple APIs and databases

#### **Web Application Developer** - *NYN, Windsor, ON*

JAN 2017 - AUG 2021

- Engaged in code discussion, team meetings, code review, and test case scenario
- Responsibilities ranged from project specifications documents, and query optimization to provisioning (server, DNS, email server)
- Supported back-end processes of ERP and Job Scheduling applications
- Developed and maintained source code, builds, scripts, installation procedures, and systems using source code control and issue tracking

- 
- Took care of development-related support requests and provided consultation (using software engineering principles) to clients
  - Made use of various Project Management and Deployment tools such as Envoyer (Laravel) and pre-processing task-runners, and other forms of development automation

## SKILLS
